

WEST CRAVEN HIGH SCHOOL NEWSLETTER

Principal's Welcome

Friday 25th September

Dear Parent/Carer,

What a week of football it has been here at West Craven; 4 of our 5 teams have played in matches this week and we are currently unbeaten! The Year 7 had an emphatic victory over Primet 10-2, with the Year 8s beating them 7-2 and Year 9s winning their game against Primet 8-3. The Year 11s battled hard to score a late winner at Park High. This has been our bogey team for a number of years now and the team battled hard in a tight game to emerge victorious. A massive well done to all involved!

Thursday evening was Burnley College Open evening. I know from speaking to Year 11, that many of them went to look at the facilities and the different courses on offer. I would encourage Year 11 to attend as many of these events as possible. We will be publishing a full list on our website next week. There is so much choice and some amazing courses in a variety of sectors and industries. It might be the opportunity to discover something that your child hadn't even thought of, from Motorsport engineering and pit crew training to pilot training and drystone walling; there really is something for everyone!

This has meant that we have moved our Year 11 Power to Perform event to Thursday 15th October. This will focus on the year ahead and preparation for the mock exams after the October Half Term. The Year 11 students have started the year brilliantly, with determination and focus! Many have been attending period 6 revision from week 1. It is important that they approach the final year with the right mindset from the very start. The year will go quickly for Year 11s, with the first exams starting on 10th May. We will outline the key dates and deadlines for students and parents and help support on how to prepare and revise. We have already purchased and begun to issue revision guides and materials for all subjects. West Craven is committed to supporting every student to achieve to their full potential. We will work with the students and the parents to do all we can to ensure that students are successful this summer.

We held our MacMillan Coffee morning on Friday this week. This event was only open to the students on this occasion, but please look out for our upcoming coffee mornings, where parents can come in to discuss any issues with me and members of the senior team. There was the usual 'bake off' competition and a huge spread of baked cakes from parents, staff and students. As Principal, I took my role very seriously in taste testing as many as possible for the judging!

It is our Open Evening next week on Thursday evening, which is an exciting opportunity to meet the new Year 5s and 6s and their parents, and show the community all that we are doing at West Craven High School. Our Ofsted report won't be ready for this event, which is a shame as we can't wait to share this with our parents and the community. We will publish this as soon as we can! The event runs from 6pm to 8pm on Thursday 1st October and I look forward to meeting those new to our community, as well as those who already know us through siblings or relatives already at the school.

Thank you for continued support

Mr Bates, Principal

STARS OF THE WEEK

7

7ABA - Ruby
7EEV - Maddison
7SHO - Suhaib

API - Faye
PYL - Summer

Congratulations to this week's top students from each form group.

PASTORAL UPDATE YEAR 9

It has been fantastic to welcome you all back to school after the summer break. You are looking so well and have made an amazing start to the new academic year.

Already, we have seen excellent engagement in lessons, positive attitudes to learning, and many achievements to celebrate. It has been wonderful to see you settling back into school life so quickly and making the most of every opportunity.

Keep up this positive attitude and commitment to your learning. I am looking forward to working with both pupils and families throughout the year and supporting you all to achieve your very best.

Mrs. Freeman

CURRICULUM UPDATE SCIENCE

Science Department Update: A Fantastic Start to September

The Science Department has enjoyed an excellent start to the new academic year, with students across all year groups demonstrating enthusiasm, curiosity and a strong commitment to their learning.

Year 7

Year 7 students have been learning about the human body and how it moves, developing their understanding of the skeletal and muscular systems. They have now begun exploring the particle model and how it helps scientists explain the behaviour of solids, liquids and gases in the world around us.

Year 8

Building on their previous studies of evolution, Year 8 students have been investigating variation and basic genetics, including hands-on DNA modelling activities. This has provided a strong foundation for their current topic, where they are exploring the development of scientific ideas about the atom and the origins of the periodic table.

Year 9

Year 9 have started the year by studying global warming and climate change, examining its impact on melting ice caps, rising sea levels, flooding and drought. To deepen their understanding, students have recreated models of the greenhouse effect and investigated how it influences water temperatures through practical scientific enquiry.

Year 10

Year 10 students began the year by revisiting key biological concepts, including cell structure and function, before moving on to revise atomic structure and the periodic table. As part of their learning, students worked collaboratively to build models representing the first 20 elements of the periodic table, helping to strengthen their understanding of chemical organisation and trends.

To ensure that every student follows the most appropriate pathway to success, one Year 10 class has chosen, in consultation with teachers, to follow the AQA Synergy GCSE route after carefully considering the available options. We would like to thank Mr Yoon and Mrs Evora for their support in developing and facilitating this pathway.

CURRICULUM UPDATE SCIENCE

Year 11

Year 11 students have made a strong start to their GCSE studies. In Biology, they have been exploring homeostasis and investigating the effects of caffeine on reaction times through practical experiments. In Chemistry, students have been studying rates of reaction, carrying out a range of investigations into the effects of surface area, temperature, concentration, pressure and catalysts. In Physics, they have been developing their understanding of forces and applying mathematical skills to calculate them.

STEM Club

We are delighted to continue offering our popular STEM Club every Thursday after school. Led by Mr Snyman and supported by Mr Fryer, the club provides students with exciting opportunities to explore science, technology, engineering and mathematics beyond the classroom.

Year 11 Recognition

A special congratulations goes to our Year 11 students, who have demonstrated excellent commitment, resilience and determination since the start of term. Their positive attitude towards learning and strong attendance at Monday after-school Lesson 6 sessions has been particularly impressive. Keep up the fantastic work as you continue your journey towards GCSE success!

Science Department

Inspiring curiosity, developing scientific thinking, and preparing students for future success.

SPORTS UPDATE

Year 8 Football Team Start Season with Impressive Victory

The Year 8 football team made a fantastic start to their season with an exciting 7-3 victory for West Craven.

The team produced an excellent attacking display, with Charlie scoring twice and Stanley also netting two goals. Further goals came from Marcus, Owen and Ryder to complete a superb team performance.

Congratulations to all the players involved on a brilliant start to the campaign. We wish the team the very best of luck for the rest of the season.

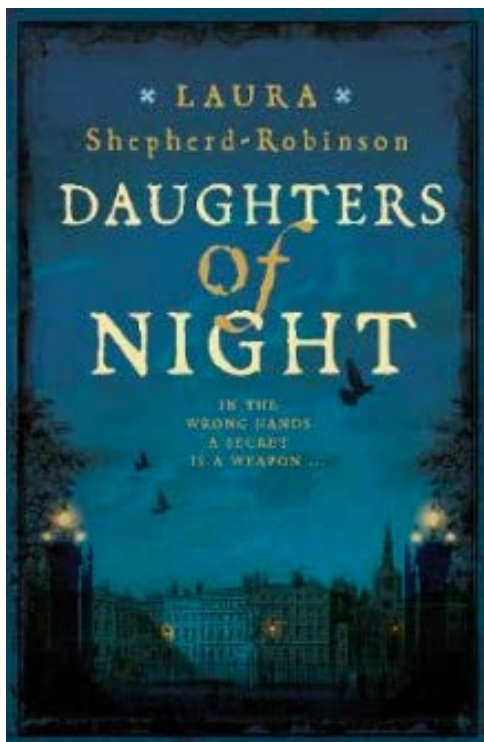

Year 9 Football Team Start the Season in Style

The Year 9 football team got their season off to a fantastic start with an impressive 8-3 victory over Primet in their first match of the year. Tomas was in outstanding form, scoring six goals, while Daniel added two more to complete the scoring.

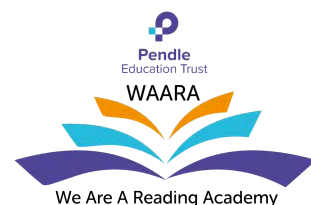

It was a brilliant team performance and a great way to begin the season. Well done to all the players involved on an excellent result, and good luck for the matches ahead!

Provide your feedback on BizChat

The librarian loves Daughters of Night by Laura Shepherd-Robinson. It is a well-researched book, and the author perfectly captures Georgian London.

There are several literature festivals taking place in October. Ilkley Literature Festival starts on the 2nd of October; Lancaster Literature Festival starts on the 1st of October and Harrogate Literature Festival begins on the 23rd of October.

Word of the Week

Mitigate is a verb. When we mitigate something, we make it less harmful or painful. It is derived from the Latin word mitigare, to soften.

The library has recently received funding to purchase new books, and we would love to hear your child's suggestions. If there is a particular book, author, series, or genre that they would like to see in the library, please encourage them to speak to Mrs MacDonald. Their ideas will help us ensure our collection reflects the interests of our students.

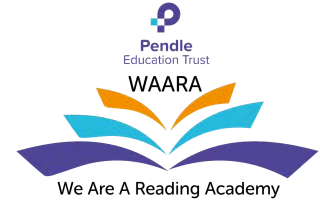

WE ARE A READING ACADEMY

Student working in library at night

The library is open after school Monday – Thursday until 4pm for pupils who wish to revise, borrow books, return books or complete homework.

H.G. Wells was born on September 21st 1866 in Kent. He was best known for the science fiction novels *The War of the Worlds* and *The Time Machine*. His books can be found in the school library.

Seated boy with knees up in wingback armchair, reading book We are encouraging all students from Year 7 to Year 11 to spend at least 1 hour a week reading at home. We suggest that this is split into three 20-minute sessions, but it is up to the individual child to decide. Students can track their reading via a reading log that they can collect from their English teacher or the librarian. Once this is completed, they can trade it in for 10 positive points and a place on the "Library Wall of Fame". There is a wide range of books in the library that your child may wish to borrow.

HOME TO SCHOOL TRAVEL POLICY

Have your say on proposed changes to North Yorkshire Council's Home to School Travel Policy.

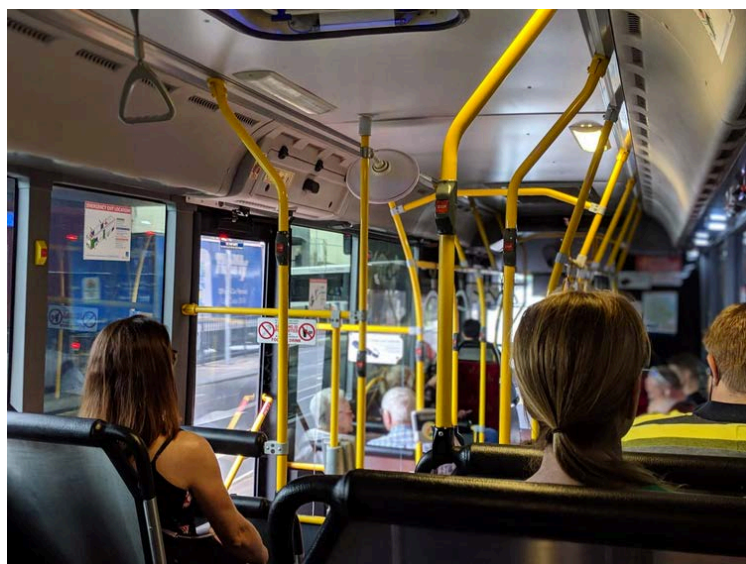

Following a Post Implementation Review of the updated Home to School Travel policy introduced in 2024, North Yorkshire Council is inviting views on a number of recommended changes.

The consultation is open now and runs until 4 November 2026. The review found that the policy is largely working as intended, helping to create a fairer and more consistent approach to transport eligibility while remaining in line with national guidance and on track to deliver planned savings. It also identified areas where improvements could be made.

Executive member for education, learning and skills, Cllr Annabel Wilkinson, said: "We know that school travel arrangements are incredibly important to families and that the changes introduced in 2024 have affected some households more than others. "When the policy changed, we promised to review how it was working in practice and to listen to the experiences of families. OFFICIAL "We have carefully considered feedback from parents and carers, schools and other stakeholders, alongside appeals, complaints and operational data. "We would encourage people to take part as this is your opportunity to have your say and help us to shape the future of our home to school travel policy in North Yorkshire." If any recommendations are approved, they would not take effect before September 2027 and will apply to children starting in Reception and Year 7 in September 2028.

Families should continue to make school preference decisions based on the existing arrangements while this process is completed. Eligibility for free travel would continue to be based on a child's nearest suitable school with available places.

The review does not propose a return to catchment-based transport eligibility. Find out more about the review and take part in the consultation at <https://www.northyorks.gov.uk/your-council/consultations-and-engagement/current-consultations/have-your-say-proposed-changes-our-home-school-travel-policy>

EXTRA CURRICULAR – AUTUMN TERM 1

We are pleased to share details of our Autumn Term 1 extracurricular programme, which offers a wide range of lunchtime and after-school clubs designed to enrich students' learning and support their personal development.

This half-term, students can take part in a variety of activities including Homework Support Club, Stage Door Drama Group, Cricket, Rounders, Imogen's Dance School, Band Club, and many more. These opportunities give students the chance to develop new skills, explore their interests, and build confidence outside the classroom.

All students who attend extracurricular activities will receive positive points on ClassCharts, recognising their commitment and participation. In addition, students who regularly attend clubs throughout the term will be awarded a certificate at the end of the term to celebrate their involvement.

We encourage all students to get involved and make the most of the fantastic opportunities available.

What Parents & Educators Need to Know about LEGO FORTNITE

Epic Games have recently introduced three new game modes to Fortnite: Rocket Racing, Fortnite Festival and, finally, Lego Fortnite: a survival game using official Lego characters. There are lots of great mechanics that encourage creativity in children, but – as with any online game – it's important to stay aware of the potential risks.

WHAT ARE THE RISKS?

MONETISATION

Lego Fortnite utilises a similar online item shop to the main Fortnite game. When this title was released, the makers introduced thousands of Lego versions of the original game's character skins. Owning an original Fortnite cosmetic means you also own the LEGO version at no extra cost, but the addition of these extra versions could potentially spark new interest in young players, making it more tempting to pay real money for these in-game accessories.

ONLINE PLAY

LEGO Fortnite can be played online, as with the base game. While a player's LEGO world is private when it's first created, they can then invite anyone on their in-game friends list to play with them. If any strangers are on this friends list, they can be invited onto their server. Thankfully, Epic Games has implemented a solid reporting system, as well as tools to kick other players from the game.

FEAR FACTOR

There is no explicit violence in Lego Fortnite, but there is a lot of combat. While the battles in Lego Fortnite remain very cartoonish and child friendly, a lot of the action unfolds inside dark caves, with spiders, skeletons or scary-looking monsters. The game can get a little spooky at times, which could potentially scare younger players.

COMPLEX GAMEPLAY

Lego Fortnite is a survival game, though it's not as simple as something like Minecraft. There are lots of different crafting stations and loads of items to use or combine (including various rarities to seek out and harvest). The gathering and crafting elements of the game can get quite complicated and confusing, which could be a source of frustration for some younger players.

Advice for Parents & Educators

LEGO IS FRIENDLY

Much like real Lego, this game is incredibly inviting. It's friendly, fun and accessible: a younger player could still enjoy this title even if they'd never played Fortnite before. With sanitised violence, it's a far more family-friendly gaming experience all round – worth bearing in mind if you're concerned about children and young people being exposed to violent or frightening content.

SET LITTLE CHALLENGES

As we've noted, the game is a lot more difficult than it may seem, which could be frustrating or upsetting for some younger players. While the game does a good job of setting realistic targets for players, it can still feel overwhelming. If parents suggest smaller challenges – such as building a house – children can flex their creativity, express themselves with their builds and feel a real sense of accomplishment.

PLAY TOGETHER

Take some time to play the game together. Not only will that help with some of the complicated tasks, but it's also just a fun pastime. Playing with family members also reduces the potential for younger players to invite strangers to enjoy the game with – if any are on their friends list. Furthermore, playing with children will let you more effectively limit their time spent on the game. Instead of "switch it off", you can now say "let's play some more later!"

MONITOR SPENDING

If a child has provided their parents' email address and been given consent to make in-game purchases, it's worth keeping an eye on how much gets spent on the in-game currency, V-Bucks. It's very tempting to buy character skins in LEGO form, as a way of expressing yourself and looking cool and unique. As you may know already, the average skin costs between £6-18, which can add up very quickly if not tracked and limited. Keep in mind that you can make it necessary to enter a PIN code to validate every purchase using the game's parental controls, and you can prevent the game from saving your payment information whenever you make a purchase. Furthermore, players under-13 automatically have their spending limited to \$100 (£78.55) per day.

Meet Our Expert

Daniel Upscombe is a writer specialising in technology, video gaming, virtual reality, augmented reality and Web3. He has also written 15 guidebooks for children, covering games such as Fortnite, Apex Legends, Valorant, Roblox and Minecraft. With work published by the likes of PC Gamer, Kotaku, Pocket Gamer and VG247, he has reviewed more than 50 games and products over the past year.
